

Donor Cryptocurrency Wallet Transfer Instructions

Please print this page for your records and to facilitate your cryptocurrency donation. After completing the transfer from your wallet, fill out the details in Step 2 to help us track your donation and issue a tax receipt.

Step 1: Destination Wallet Information

Please transfer your donation to the appropriate wallet address listed below. Make sure you select the correct blockchain network.

Bitcoin (BTC) Wallet Address (Bitcoin Network):

Ethereum (ETH / ERC-20) Wallet Address (Ethereum Network):

Step 2: Donor Transfer Details (Please complete)

Print this form and write or type your transaction details below to verify your contribution:

Donor Full Name:

Donor Email Address:

Cryptocurrency Sent (e.g., BTC, ETH, USDC):

Amount Sent:

Transaction Hash (TXID):

Date of Transfer:

Step 3: Transfer Guidelines

- **Verify Addresses:** Always double-check the recipient address. Cryptocurrency transactions are permanent and irreversible.
- **Network Match:** Ensure you send Bitcoin (BTC) only to the BTC address, and Ethereum (ETH) or ERC-20 tokens only to the ETH address. Sending assets to the wrong network will result in permanent loss.
- **Network Fees:** Ensure your wallet account has sufficient funds to cover the network transaction (gas) fees.
- **Tax Documentation:** Once we verify the transaction hash against our wallet records, we will issue a formal donation receipt to the email address provided above.
